Revue de presse

A survey of more than 200 of the most accomplished supersized works on walls, by artists worldwide. --
High Life (British Airways)

Alongside stunning in-situ photography, Mural XXL adds commentary from practitioners on their planning methods, challenges and inspirations. --Jocks & Nerds

Showcases the best large-scale graffiti around the globe. --guardian.com Présentation de l'éditeur

In its early days, illegal graffiti and street art were of necessity modest in scale, hastily created in hours or even minutes, and destroyed just as quickly by authorities, vandals or the elements. Now, however, graffiti writers and street artists are able to take their work to an entirely new level, creating carefully planned, permanent works that cover entire buildings and add a new visual dimension to the world's cities. Claudia Walde, better known as the record-breaking street muralist MadC, has selected more than 200 of the best XXL works and profiled nearly 30 artists who pioneered this trend. Working in dangerous conditions, often hundreds of metres above the ground, yet always keenly aware of the view from street level, these new street muralists are as fearless and technically skilled as they are creatively brilliant. This is a thrilling, super-sized, international celebration of one of the most visible new art movements on the streets of our cities.
